Written Testimony

I am writing to you about the new law Governor Lamont wants to pass. I have also written to my State Reps about my feelings. I implore you to not pass this bill because you will be taking away our rights for honest gun owners and to have to protect our home and family from the criminals. I have served in the Army in the 80's to protect the rights that you want to take away. I hope this text will help our cause, God bless America. Respectfully, THOMAS R. LAW Jr
